-
- **Gerald Farin**
- received his Ph.D. in mathematics from the University of Braunschweig,
- Germany, in 1980. He is the author of several textbooks on 3D Modeling.
- He is just finishing the text "Introduction to Scientific Computation and Visualization".
- He is co-editor-in-chief of the journal "Computer Aided Geometric Design"
- and serves on the editorial board of "The Visual Computer". He has lectured
- about his research (3D modeling) at over 100 locations worldwide.
-
- His industrial experience consists of four years of CAD/CAM development
- at Mercedes-Benz, Stuttgart, Germany. He subsequently worked at the
- University of Utah (Mathematics) and Arizona State University
- (Computer Science) where he codirects the interdisciplinary center
- PRISM (Partnership for Research in Spatial Modeling). This center
- focuses on research involving 3D geometry, such as 3D face scans, MRI images,
- or GIS data.

Cluttered

The slide features a central circular graphic with a gradient from yellow to red. Inside the circle are two stylized human figures standing on a platform, surrounded by numerous icons representing digital life: a car, a laptop, a camera, a game controller, a film reel, a globe, a magnifying glass, a document, a clock, a database cylinder, a laptop, a smartphone, a stack of papers, a bar chart, a watch, and a folder. The background is split into green and blue sections with various text labels.

...and not

Delivery

- No complete sentences / slide
- Finish on time
- Thank audience + quit

Outline

- Technology
- Delivery
- Content
- Chairing

Content

- Give outline
- Revisit outline
- No verbatim reading

Content

- Figures / Video
- “light stuff”
- Repetitions
- No missed slide obstacle

Content

- Know level of audience
- Define / motivate problem
